

FDA Experts Association Holds Autumn Gathering in Washington DC

In celebration of the "Golden Autumn" season, the FDA Experts Association hosted its North America Golden Autumn Reception on October 16, 2021, in North Bethesda, Maryland.

Founded in 2019, the association has steadily expanded and evolved, now boasting a membership of nearly 100 professionals spanning diverse global regions, with new members joining continuously. Members represent a wide spectrum of specialized fields, including clinical research, pharmacology, Chemistry, Manufacturing, and Controls (CMC), statistics, and medical devices.

Evergreen Therapeutics provided support for the gathering. Tom DU, current President of the FDA Experts Association, delivered a welcome address and shared updates on the association's work progress in the first half of 2021 as well as its 2022 work plans. With practical, rigorous, and science-based principles, members strive to develop the association into a unique professional group.
